Luggage:

\$25 dollars for each bag, there are two bags allowed. 50lb is weight limit apply.

cabin bags are free.

Pack-ing Check-list:

On all cruises you'll want to remember to bring a small day bag. On the day you board your ship, it can take up to 8 hours for your luggage to be delivered to your cabin, so fill the bag with all the essentials (medicines, documentation, and so on) that you'll need for the day. The bag will also come in handy when you're out exploring the ports of call.

No matter where you're sailing, don't forget to pack your camera. Bring binoculars if you're on a cruise where you are likely to see wildlife. Consider the [shore excursions](#) you plan on taking and make sure to bring appropriate attire. If you're going to hit the gym, pack your sneakers and gym clothes. If you take any medications, make sure you to bring them along with you.

A special tip for ladies: accessories such as scarves and jewelry allow you to wear a simple black dress more than once. Classic mix-and-match separates in neutral colors will also work well and cut down on the attire you need to bring.
